**FOREWORD**

Fifteen years ago this little Glad business of mine was started in my back yard as a hobby. It has continued to grow year after year. Thanks to you, my friends and customers, my planting this past season covered eleven acres. I started to ride a hobby, now the hobby is riding round! Your repeat orders are evidence of the fact that I have retained your confidence which I value. I will do everything possible to merit your continued patronage.

The past growing season has been very favorable, with plenty of rain and ideal harvesting conditions. I have a storehouse full of fine plump bulbs and I know you'll want to add a few new ones of our Favorite Flower to your collection. What other flower is as easy to grow, has the variety of color, keeps as long after cutting and has as many blooms to the stem as the gladiolus? Truly it is the poor man's orchid and much less expensive with a great deal more variety. Are you a gladiolus connoisseur? You'll find many of the newest ones in my general list. Are you a thrifty buyer? Try the Special Collections. Are you just an all around general gardener who wants a few Glads for cutting? Try my collection of Assorted Glads.

Visitors are always welcome at my fields during the blooming season.

The Arenius Originations

	Per	Large	Med.	Small	Per	Bulblets
	1 1/4" up	3/4"-1 1/4"	3/4"-3/4"			Per
Constancy, a large clear rose, well placed. A fine addition to the few rose colored Glads	10	\$ .50	\$ .25	\$ .15	100	\$ .10
Coral Cluster, clear coral red with small deeper red lines in throat. A decorative variety with 5 or 6 open. Spikes always straight and blooms well spaced with fine keeping qualities. Midseason and medium increase. Bulbs always healthy.	100	2.00	1.25	.75	1000	.50
Early Melody, early, tall, pinkish lavender. Very long flower spike with blooms well placed	1	.50	.35	.20	10	.40
King Arthur, a large, ruffled, deep mauve-lavender. I believe this variety is still the finest color in the deep lavenders, although inclined to be somewhat tempermental. However, with plenty of fertilizer and water it will produce outstanding blooms.	10	4.00	2.50	1.50	100	3.00
Lavender Delight, a clear deep lavender with cream throat. Strong easy grower of medium height. Fine for florists' work.	100	30.00	18.00	12.00	1000	20.00
Lavender Queen, deep violet lavender, usually clear, although this past season lt flecked some. Spike tall, straight with large blooms perfectly placed. Midseason. Good propagator. I consider this my best lavender.	10	1.00	.75	.50	10	.80
Mauve Magic, very tall mauve lavender. Opens 8 large blooms and is a giant in growth and length of flower spike. The color, however, is not clear and it is inclined to be soft. This is the last season that I will list this variety.	100	60.00	45.00	30.00	1000	40.00
Miss Elegance, tall cream of exquisite and stately appearance with inconspicuous red line thru center of each petal which adds to its attractiveness. Tall straight spike of 20 buds opening 5-6 blooms of wide open form. Midseason and fine propagator.	10	2.00	1.00	.50	100	1.00
Pinnacle, tall rose pink with up to 10 open and most of the buds showing color like Pelegrina. Good grower and propagator	100	12.00	6.00	3.00	1000	6.00
Radiance, a very bright clear red. Medium height with 6 open. Easy grower and propagator	10	.50	.25	.15	100	.10
Red Ruffles, extremely ruffled orange red opening about 8 wide open blooms on a long flower spike. Slow propagator. Midseason.	100	2.00	1.25	.75	1000	.50
Scarlet Glow, a very bright, clear scarlet. Very tall with large blooms. Stock limited	1	.35	.25	.15	10	.20
Peggy Lou, originated by G. W. Wilson and introduced this year. It comes very highly recommended by several growers who have either grown or seen it at the shows. Much like Picardy except it is a deeper pink, practically a self color. Very long flower spike and large blooms. Midseason and as fine a propagator as Picardy. Don't believe you'll make any mistake in investing in this one. Large or medium bulbs \$3.00 each. With each bulb ordered will include 2 small bulbs.	10	5.00	3.00	1.50	10	3.00
